About GIBF

India is a fast growing country and an emerging Super Power. With Indian Government's drive for initiatives such as "Make in India", "Skill Development" and "Aatmanirbhar Bharat Abhiyan (Self-Reliant India Mission)" there are ample opportunities for both Indian and Global companies to run start-ups and make exponential growth in all business sectors. These initiatives also provide a golden opportunity for Indian MSMEs to promote themselves and show their true potential to grow and flourish.

In such a dynamic and vibrant business scenario, to promote synergy, a need for the formation of a common platform was felt. The idea was perceived and progressed further by Dr. Jitendra Joshi, a successful businessman and visionary who has over a glorious 25+ years of experience in Manufacturing and Service Industry at Senior Level Management in numerous MNC companies.

To fulfill this need and to bring together business professionals from various segments like Automobile, Engineering, FMCG, Chemical, Pharmaceuticals, Electronics, Heavy Metal, Service Industry etc. Global India Business Forum (GIBF) was formed.

Today, Global India Business Forum is one of the fastest growing networking platforms in the world that has successfully connected businessmen from different countries and sectors on one platform and is raring to go for more.

We, at GIBF, bridge the gap between demand for opportunities and their supply by conducting webinars and conferences. These webinars and conferences shall help Ambassadors and Consul Generals of countries across the world shed light on several business opportunities their countries have in store for foreign investors. They will also help businessmen identify business opportunities that best suit them and we shall help them come together on our platform.

GIBF consists of members from all fields of business, industry, academics and other professions without any segment boundaries. GIBF has its head office in Delhi, Corporate Office in Pune, India and Global offices in Dubai, USA, UK, Singapore and China. It also has a presence at Mumbai, Chennai, Ahmedabad, and Kolkata & Cuttack in India.

VISION

Become the best-in-class business networking platform that creates and builds a world business community that would see MSMEs flourish across the

MISSION

To provide a common platform for businesses and entrepreneurs to share their ideas & experiences for entrepreneurial development.

VALUES

We value holistic growth, humanistic diversity and are committed to professionalism, excellence, community involvement, accountability and timely progress with ethical values.

President's Message

Through its initiatives and actions, the Global India Business Forum takes responsibility for contributing to society, particularly in the aftermath of the pandemic, motivating all businessmen, and setting a benchmark. GIBF is playing a critical role in motivating, boosting morale, and appreciating businessmen of all sectors. We invited the Governor of Maharashtra, Shri Bhagat Singh Koshiyari to be the chief guest of honour at the National Business Excellence & Achievers Awards GIBF hosted at Raj Bhavan in Mumbai and we are grateful he accepted our invitation graciously. I would like to give special mention to CG for Arab Republic of Egypt, Attia Abou Elnaga and the deputy high commissioner for People Republic of Bangladesh, Md Lutfor Rahman.

The primary objective of the Global India Business Forum has always been to assist MSME entrepreneurs not only in India but throughout the world. The GIBF is aiming to inspire businessmen across India, especially in the wake of the outbreak, since the MSME sector was severely impacted by Covid-19. Global India Business Forum is ready to contribute to the policymaking and benefits for various business sectors with the Government of India. The goal of the GIBF is to investigate commercial possibilities in 195 nations across all continents.

The objective of the National Business Excellence & Achievers Awards is to recognize businessmen who have fought against all odds of the pandemic and have emerged victorious. The awards also want to inspire corporate leaders to perform even better now that the global economy is recovering. These awards are for artists, singers, actors and also for all those who have excelled in their respective fields. All these achievers are important to India and GIBF is trying to boost their confidence.

We have complete faith that businessmen and achievers will surpass even greater heights in the times to come. I would like to give my heartiest congratulations to all the winners for the exceptional work they've done all year. I would also like to encourage all businessmen to keep on working hard and keep up the great work!

Dr. Jitendra Joshi

Chief Guest

SHRI BHAGAT SINGH KOSHYARI

Social activities

He founded various schools in Uttarakhand (Saraswati Shishu Mandir, Pithoragarh, Vivekanand Vidya Mandir Inter College, Pithoragarh; and Saraswati Vihar Higher Secondary School, Nainital).

Even after years in politics, he remains steadfast in his dedication to education. He is currently serving as the Governor of Maharashtra and is the (ex-officio) Chancellor of the University of Mumbai. Since 2019 (during his tenure as the Governor), there have been several crucial developments in the state's higher education atmosphere. These range from the introduction of the NEP 2020, and the setting up of many state cluster universities - Dr. Homi Bhabha State University & HSNC University, Mumbai of which he is the (ex-officio) chancellor.

Hon'ble Governor of MAHARASHTRA

Bhagat Singh Koshyari is an Indian politician serving as the 22nd and current Governor of Maharashtra from 5 September 2019. An RSS veteran, Koshyari served as National Vice-President of BJP and party's 1st State president for Uttarakhand. He also served as 2nd Chief Minister of Uttarakhand (formerly Uttaranchal) from 2001 to 2002 and thereafter, he was the leader of the opposition in the Uttarakhand Legislative Assembly from 2002 to 2003. He has also served as an MLC in Uttar Pradesh Legislative Council (when Uttarakhand was part of undivided Uttar Pradesh) and MLA in Uttarakhand Legislative Assembly. Later Served as an MP in Rajya Sabha from 2008 to 2014 from Uttarakhand and then the MP in the 16th Lok Sabha from Nainital-Udhamsingh Nagar constituency, earning him the distinction of being elected in both houses of State Legislature and both houses of National Parliament respectively.

Personal and professional life

Bhagat Singh Koshyari was born on 17 June 1942 to Gopal Singh Koshyari and Motima Devi at Palanadhura Chetabgarh, Bageshwar District, Uttarakhand in a Kumaoni Rajput family .

Koshyari holds a master's degree in English and studied at Almora College. During this period, Koshyari was also a general secretary of the students' union of Almora College, Almora, between 1961 and 1962. He has also represented the Executive Council of Kumaon University, from 1979 to 1982, 1982 to 1985 and 1988 to 1991.

He has had a successful career as a teacher and journalist. He had worked as a lecturer at Raja Inter College, Raja Ka Rampur, Etah district, Uttar Pradesh for few years. Koshyari is a founder and managing editor of Parvat Piyush, a weekly published from Pithoragarh, Uttarakhand since 1975. He has also published two books, Uttarakhand Pradesh Kyun? and Uttarakhand Sangharsh Evam Samadhan.

Vithal Kamat's

Original Family Restaurants

Vidli Restaurants Ltd, a Mumbai-based Company, is a part of The VITSKamats Group. Their Company was established in 2007 and started its business operations in November 2013 for undertaking activities in the hospitality vertical. The VITSKamats Group is a known name in Hotel & Restaurant Industry segment.

The company operates a chain of restaurants serving hygienic standardized food items in a quick-serve format at various locations on national highways, state highways, and cities. Currently, their Company has more than 40 operating restaurants in Western India having their presence on major highways.

The Company believes in providing quality food in hygienic surroundings at convenient locations for serving their customers better.

Hygiene, quality, and customer satisfaction are core concepts exercised by their team at all outlets which distinguish them from local restaurants. Their hygienic and convenient locations, dedicated team efforts, quality of service, and products are the strengths that help them work towards their long-term vision of being the largest trusted & premium vegetarian family restaurant.

Over the years The VITSKamats Group has been instrumental in the launch of successful hospitality verticals and Restaurants Brand "Vithal Kamats Original Family Restaurants" and "Kamats Original Family Restaurants".

The company has been expanding its restaurant chain and concentrated on standardizing its products and services through centralized purchasing and training systems. The VITSKamats Group has emerged as a symbol of quality, originality, and truth, which has, in turn, nurtured trust among people for their services. Hence this Group has earned the tagline "Achha Hai Sachha Hai".

The VITSKamats Group is a known name in Hotel & Restaurant Industry segment. They aim to be the largest premium, trusted vegetarian family restaurant chain by delivering guest delight through dedicated team members.

For the employees and stakeholders – they aim to be the employer of choice, to grow profitably through efficient means and maximization of revenues while conducting themselves with social responsibility.

Pudhari Publications Pvt. Ltd.

Maharashtra's Best Newspaper Brand

पुढारी

Pudhari is a popular Marathi daily, printed in three centers and distributed in Maharashtra, Goa and North Karnataka. It is the leader in Kolhapur and Western Maharashtra and the third-largest Marathi newspaper daily in the entire state of Maharashtra. Alongside Satyawadi, it is one of the two oldest surviving newspapers in the state.

Pudhari was founded as a weekly in 1937 and turned daily in 1939. In 1943, Ganpatrao Jadhav became its new owner. Pratapsinh Jadhav followed in his footsteps.

'Pudhari' has preserved the tradition of 75 years of fearless journalism and it is not an easy task', Prime Minister Modi commended while lauding the dedication of Dr. Padmashri Pratapsinh Jadhav, the Chairman and Editor-in-Chief of the publication, who has maintained the high journalistic traditions of the daily. The Prime Minister paid glowing tributes to the rich traditions set by Dr. G. G. Jadhav, the founder of the daily, during his address at the platinum jubilee celebrations of the daily at Kolhapur on January 3.

The personal warmth and blossoming long friendship that Narendra Modi shared with Pratapsinh Jadhav was also referred by Modi himself during his address. He said, 'I consider myself as a member of his family in fact, this event has made this friendship more intense'. The Prime Minister appreciated Dr. Pratapsinh Jadhav for raising public interest issues and concerns in his speech rather than extolling Pudhari. Dr. Yogesh Jadhav, Managing Director and Managing Editor, while proposing vote of thanks, expressed confidence that Modi, who is an icon for young generation, would take India to a new glorious era in this high tech program where more than 20 thousand elite well wishers of Pudhari were present at the jam packed venue.

The Newspaper enjoys a distinguished privilege as Late Prime Minister Hon'ble Rajivji Gandhi highly acclaimed the contribution of this Newspaper in nation building on the eve of Golden Jubilee function of Pudhari celebrated at Kolhapur in 1989. To sum up; the publication house has become a legendary institution in Maharashtra, South Karnataka, Coastal area as well as Goa with its epicentre at Kolhapur which itself is a religious, historic, industrial and cultural centre of the country.

In 2016, Pudhari's publisher, Pudhari Publications, invested in new color printing and design technologies. In 2018, the editorial office of Pudhari was attacked with stones by Pune protesters.

The Founder

Hon. President Smt. Pratibhatai Patil released a Commemorative Postal Stamp on Founder Editor of Pudhari Late Dr. G.G. Jadhav on 18th November, 2009 at Rashtrapati Bhavan. L Minister of state for Prime Minister's Office Prithviraj Chavan.

The impact of this function has been felt through-out the whole country, as it received wide publicity.

Franke Faber India Pvt. Ltd.

Franke Faber is one of India's leading kitchen appliances manufacturer and the company originates in Italy. It has been a household name for the past 20 years and is headquartered in Pune, where it has established its plant. India being an important market, the plant is futuristically designed and has state-of-the-art equipment, and is also the hub for Asia Pacific and Middle East regions. Faber's India vision and mission is to offer solutions in which aesthetics and practice of use are always combined. Most importantly the mission is to be the ideal partner to their customers while maintaining maximum attention to issues concerning Quality, Safety, and Environment.

The group is the first in its sector in Italy, where one out of every two range hoods is Faber, and is present globally with its own brand and leading local brands such as Roblin in France, Mepamsa in Spain and Spar in Argentina.

Headquartered in Fabriano, Italy, Faber, the worldwide leader in kitchen hoods, was incepted in 1955. Since then, we have been imagining, designing and manufacturing products that turn the kitchen from just a space to an enjoyable experience for you. Faber has been the innovation driver in kitchen technologies the world over and now has a turnover of €220 million. Add to it, the talented global team responsible for inventing and patenting unique and user-friendly technologies, it comes as no surprise that in certain parts of Europe, one hood out of two is a Faber hood.

Vision & Mission

Faber's India vision and mission is to offer solutions in which aesthetics and practice of use are always combined. Most importantly the mission is to be the ideal partner to our customers while maintaining maximum attention to issues concerning Quality, Safety, and Environment.

Journey Worldwide :

- Production of best-in-class hoods since the last 50 years
- Market leader with a history of innovative concepts and design
- One in every two hoods in Italy is Faber
- Presence in 13 countries and over 3 continents
- Focus on commitment, tenacity, passion and dynamism
- Revolutionised cooking hoods from functional to modern, effective and elegant
- Cutting-edge technology, unmatched design and an eye for quality

ARCELOR MITTAL - NIPPON STEEL LTD.

ArcelorMittal Nippon Steel India is one of India's leading integrated steel producers with an annual production capability of 10 million tonnes, supported by a 20-million-tonne pellet-making capability.

The state-of-the-art facilities comprise iron ore beneficiation, pellet making, iron making, steel making, and downstream facilities, including a cold rolling mill, a galvanizing and pre-coated facility, an extra-wide plate mill, three pipe mills with coating facilities, and steel-processing facilities.

The ESPF is strategically located near Pune, one of the largest industrial hubs in India. ESPF manufactures a wide range of value-added products catering to different customer segments across both domestic and international markets.

Steel Your Way

ArcelorMittal Nippon Steel India is one of India's leading integrated steel producers with an annual production capability of 10 million tonnes, supported by a 20-million-tonne pellet-making capability.

The state-of-the-art facilities comprise iron ore beneficiation, pellet making, iron making, steel making, and downstream facilities, including a cold rolling mill, a galvanizing and pre-coated facility, an extra-wide plate mill, three pipe mills with coating facilities, and steel-processing facilities.

Whatever you need, the way you want it

ArcelorMittal Nippon Steel has the widest range that spans the spectrum of steel products encompassing over 300 grades of steel and value-added products – and backed by a production capacity that's amongst the largest in the continent – ArcelorMittal Nippon Steel is where your search for the best in steel ends.

ArcelorMittal Nippon Steel is known for the high quality of our flat steel products and supply to customers both in India and abroad. Our teams work closely with customers to develop new grades of steel customized to suit their specific requirements. We focus on high value-added grade steels, many of which are import-substitute products. Among integrated steel producers, we have the widest range of flat steel products that cater to a diverse section of industrial segments – from automobiles, shipbuilding to defense.

ArcelorMittal Nippon Steel Processing and Distribution (ESPD) is India's largest steel solutions chain with over 350 outlets across India and Dubai. It offers tailor-made steel supply solutions and can process several varieties of steel with versatile production lines. We have launched service centres – special units where steel is processed to the exacting specification of our customers. These are located across India – in Hazira, Pune, Bhuj, Chennai, Indore and Bahadurgarh.

Vision Of Indian Steel Association :

The VISION of Indian Steel Association is to “work towards transforming the Indian Steel Industry as a global leader acclaimed for its Quality, Productivity and Competitiveness, with focus on health, safety and environment, along with growing thrust on innovation through R&D, adopting an inclusive and collective approach”.

Egypt

Prior to being posted as ambassador to India in Mumbai, Mr. Attia Abou Elnaga has served as Diplomatic attaché at the Egyptian ministry of foreign affairs, third secretary, embassy of Egypt in Mexico, deputy chief of mission in Mozambique, Malaysia and Brunei, Latin America and Caribbean countries, Burundi, was deputy assistant minister of academic cooperation and scientific research

About Egypt

Egypt is a regional power and also the 3rd largest country in Africa with a population of about 87 million people. Aside from Cairo which happens to be the largest city in Egypt, Alexandria and Nile Delta are also major cities in Egypt. Although Arabic is the official language of Egypt, the English language is also widely spoken all over Egypt. The economy of Egypt revolves around Agriculture, natural gas, petroleum, coal, services, and tourism.

No doubt the tourism sector contributes over 10 billion US dollars to the economy of Egypt annually and it employs a good percentage of the labor force in Egypt. Notable tourists destination in Egypt are the Great Pyramid, River Nile, Egyptian National Military Museum, The Grand Egyptian Museum, The 6th October Panorama, The Egypt Museum, and The Red Sea et al. much more than its historical sites, tourists visit Egypt for both Religious and Medical purposes also.

Mr. Attia Abou Elnaga

Consul General

Consulate of The Arab Republic of Egypt in Mumbai

The renewable energy equipment market is worth several billion dollars. Egypt's Integrated Sustainable Energy Strategy aims at increasing the share of energy generated from renewables to 42% by 2035.

Egypt is the largest oil producer in Africa outside the Organization of the Petroleum Exporting Countries (OPEC) and is also the largest oil and natural gas consumer in Africa. In 2019, the Ministry of Petroleum and Mineral Resources signed contracts with 12 new exploration and production concessions with ExxonMobil, Shell, BP and others. These contracts are estimated to bring in around \$800 million in initial new investment. New exploration areas include the Western Desert, Gulf of Suez, the Nile Delta, and the Mediterranean. The Egyptian government is currently accepting bids to explore for oil and gas in the Red Sea, and it is expected to open up its Western Mediterranean waters in a new bid round in the near term.

Business Opportunities In Egypt

Rice Farming- The consumption of rice in Egypt is far greater than the rate at which rice is produced. You can be guaranteed that the rice market is not saturated. Therefore, the cultivation of rice can be an ideal idea to start a business and a fruitful source of profits. Although Egypt has limited arable land due to the stretch of desert, it is still highly suitable for the cultivation of grains. Grains are largely consumed in every household in Egypt.

Snail Rearing- Snail farming is one of the surest ways to immense wealth in Egypt. This business is an effortless task, with little or nothing to be spent on food and shelter.

Oil Palm Retailing - Palm oil is widely used in Egypt. There is plenty of gains in retailing this commodity in Egypt. You can store the oil during the peak times and sell it during the off-season, and watch as your gains will skyrocket.

Travels and Tours - The tourism industry is a major contributor to the GDP of Egypt and any business that is built around this industry is sure going to be profitable. One of the ways you can make it big in this industry is to seek a business relationship with similar companies in other countries especially countries that have a large volume of visitors to Egypt.

Sale and Services of Medical Equipments - Egypt has a strong and vibrant health sector and one of the ways you can get into this industry is to establish your own company that sells and services medical equipment. You don't necessarily need to be the one that will be carrying out the maintenance and servicing of the equipment.

Bilateral Trade Relations with India

India and Egypt, two of the world's oldest civilizations, have enjoyed a history of close contact from ancient times. Ashoka's edicts refer to his relations with Egypt under Ptolemy-II.

Egypt has been traditionally one of India's most important trading partners in the African continent. The India-Egypt Bilateral Trade Agreement has been in operation since March 1978 and is based on the Most Favoured Nation clause and the bilateral trade has increased more than five times in last ten years. Over 450 Indian companies are registered in Egypt of which around 50 are in manufacturing and construction with a combined investment exceeding US\$ 3 billion.

Approximately half are joint ventures or wholly owned Indian subsidiaries while the rest operate through their representative offices and execute projects for government organizations.

Major Indian investments in Egypt include TCI Sanmar (with a value of US\$ 1.5 billion), Alexandria Carbon Black, Kirloskar, Dabur India, Egypt-India Polyester Company (EIPET), SCIB

Paints, Godrej, Mahindra and Monginis. Indian Pharmaceutical major Hetero Drugs Ltd launched a JV in May 2015 to produce a Hepatitis-C drug and Sun Pharma has recently commenced operations.

About Yotta Infrastructure

Yotta Infrastructure, a Hiranandani group company, is empowering organizations to realise their digital transformation journeys.

While at one end Yotta operates the world's 2nd largest Tier-4 datacenter in Navi Mumbai and has upcoming datacenter parks in Great Noida, Chennai, Kolkata and Gujarat - Yotta also provides an array of fully managed IT services and solutions under the Yotta Tech portfolio.

The services under this portfolio include various Public Cloud services, IT Management, IT Security, and Network & Connectivity services.

Mr. Sunil Gupta

The Co-founder & CEO of Yotta Infrastructure

Sunil is an Engineering graduate from NIT Kurukshetra, India and Management graduate from Columbia University, New York. Known as 'India's Data Center Man', he has unmatched experience in the Data Center, Cloud and Managed IT Services industry and is best known as the person who has built and operated the greatest number of (more than 20) third party data centers in India. Sunil Gupta has been featured in the illustrious Data Economy's APAC 50 list and is one of the 100 personalities to watch out for in the next decade who are posed to heavily influence the direction and transformation of the global data center and cloud markets.

Sunil is currently the Co-founder & CEO of Yotta Infrastructure, a Hiranandani Group Company. Under his vision, Yotta was formed to power India's digital economy, driven by data. Yotta has been powering the digital eco-system with Data Storage and compute capacity via India's largest Uptime certified Tier IV Hyper-scale data center park in Maharashtra and its upcoming data center parks in Tamilnadu, Delhi-NCR, West Bengal and other regions in India. Besides creating India's largest data center parks, Sunil has also chalked out disruptive technology portfolio solutions for varied industries at economical prices under Yotta Tech.

Moreover, for the first time in India, Sunil is instrumental in offering Data Center Build services on the colocation model which Hyper-scalers and cloud players can utilize without blocking their Capex and still get the same dedicated tailor-made infrastructure.

Sunil is an angel investor as part of the CIO Angel Network (CAN) and loves to invest in and promote start-ups operating in new technology areas like AI/ML, IoT, Big Data & Analytics. Sunil has also authored the "Financial model for understanding data center investments" – an in-depth mathematical model that helps the C-Suite make informed data center investment decisions.

Mr. Darshan Hiranandani

Managing Director, Hiranandani Group of Companies

Darshan Hiranandani is the Managing Director of the Hiranandani Group of companies – a diversified business group with interests in Real Estate, Datacenters, Energy, and Industrial Warehousing and Supply Chain.

Darshan has completed his MBA from Rochester Institute of Technology, (RIT) New York. Darshan serves as a Trustee of RIT, New York and on the Board of RIT Dubai. He also serves on the charitable board of Hyderabad Sind National Collegiate Board (HSNCB) which runs 17 colleges in the city of Mumbai.

An MBA (specialising in Entrepreneurship and Finance) and B.S. (specialising in Management Information System) from Rochester Institute of Technology, New York, he is the Managing Director & Chief Operating Officer of the Nidar Group. He is responsible for taking forward the legacy of the Group from domestic to international arena. He heads the Group's real estate business in Dubai (U.A.E.) and energy business in India and abroad. A composed individual with a focussed vision, he successfully delivered his first landmark project, '23 Marina' in Dubai bringing international acclaim to the Group for constructing the world's tallest residential tower at that time.

He has been instrumental in the Group's venture into the energy business that boasts of state-of-the-art, environment-friendly and futuristic technologies for meeting the country's power requirements and contributing to its economic growth. He has been actively involved in the Group's SEZ development programmes and played a crucial role in implementation of hightechnology international standards in the Hiranandani Hospital, Powai (Mumbai) that won the Ramakrishna Bajaj Award for the best hospital in India. He is also a winner of Asia Pacific Quality Organization Global Performance Excellence Best in Class Award - 2016.

He Believes That "the Future Beckons With A Lot Of Potential, Which We Are Effectively Poised To Harness At The Back Of Our Intrinsic Strengths, Spanning A Strong Balance Sheet, Manpower Resources, Technological Prowess, Process Skills, Experience And Expertise"

Govt and Pvt sector support for export promotion of Cottage and Handicrafts Industry

Date: 09th July 2021

A webinar exploring Government and Private sector support for export promotion of Cottage and Handicrafts Industry was organized by Global India Business Forum on 9th July 2021. Cottage & Handicraft Industries play a crucial role in providing large employment opportunities & also help in industrialization of rural and backward areas of the country thereby reducing the regional imbalance, assuring more equitable distribution of national income and wealth. Dr. Sujata Vaidya eloquently narrated and hosted this event, which drew in Panelists from relevant disciplines to participate. Mr. Amitkumar Jain, Director, Solapur Garments Manufacturers Association, Maharashtra, spoke about having a Cluster approach and thus a shared goal that will help to expand nationally and internationally, emphasizing that in order to stand out in the crowd, your product must be unique and true to your roots. Ms. Anugya Handoo, Sr. Statistical Officer, MSME- DI, Indore, Ministry of MSME elaborated on different schemes of the Government. The special focus being the Scheme of Fund for Regeneration of Traditional Industries (SFURTI) Revival of traditional industry, with an 8-crore grant to create or build a cluster for handloom, embroidery, and various artisans, with a focus on rural economies. Under which khadi, village industries and coir clusters have been taken up for development by providing them with improved equipment, common facilities centres, business development services, training, capacity building and design and marketing support. Mrs. Renu Nayak, Social Entrepreneur, Shahpura Bhopal (M.P.) The first person who tried block printing on chiffon and georgette; spoke about her journey on the block printing technique, “you have to cultivate your designs products according to wish and demand of customer which leads to constant innovation.” And noting that the need of the hour is to convert handloom materials into finished products, i.e., products that are sustainable, fashionable, and wearable. Thus, in order to encourage the handicraft and cottage industries in the country by encouraging and providing artisans with a platform to showcase their products in various forums, it is necessary to first understand the importance of the handicraft and cottage industries in our world and in our environment.

Global India Business Forum

Global India Business Forum organized a session on the Digital era, we are breathing inside the Cyberspace. Digitization is having an increasingly significant impact on all parts of our lives and businesses. We're seeing a lot of machine learning and artificial intelligence tools as well as a lot of software, hardware, and cloud infrastructure is used. We are breathing inside Cyberspace in this Digital era. The term "cyberspace" refers to the "virtual computer world" or "Internet Connected System." In India, we are on the verge of modernization and globalization in order to become a smart city. Mr. Aditya Sawant, Chief Executive Officer at Aquila, Mumbai, Maharashtra, India covered the topic on how cyber security affects organisations and employees. A wide range of direct or intangible costs that contribute to the overall impact of a major cyber incident was explained by and explained the fourteen cyberattack impact factors and the cyber adversary of the 21st century by Pawan Desai, Co-founder & CEO - MitKat Advisory Services, Cyber Security. Vivek Vijay Sarkale, Senior Consultant and Threat Intelligence Research Lead for DSCI Delhi, India Elaborated on Dynamic Threat Landscape and potential risks, Transforming nature of enterprise security, the risks arising from the pandemic. And lastly COL Sanjeev Relia (RETD), Senior Advisor, Cyber Security Delhi, India Spoke on India as a nation facing a cyber threat, Critical Info Infrastructure and why there is a threat to CII, What is the threat, and what needs to be done? This was followed by an interactive Q&A session hosted by Ranjeet Shekdar elaborating more on the topic "Cyber Security in the Era of Digital".

A stable economy with myriad opportunities "Investment and Trade opportunities in Trinidad and Tobago" the gateway to the Americas an informative webinar was hosted by Global India Business Forum. The webinar was made even more remarkable by the participation of His Excellency Dr. Roger Gopaul, The High Commissioner, High Commission for the Republic of Trinidad and Tobago along with Sekou Alleyne President, Pramilla Ramdahani Vice President, Investments at InvestTT. InvestTT which focuses on the country's key non-energy sectors: ICT, Logistics, Maritime Services, Electricity Intensive Manufacturing, and Tourism spoke about the investment opportunities in the following areas. Different facts about Why Invest In T&T were explained like Low Business Costs, Access to Global Markets, Ideal Location, Investment Climate, People & Diverse Culture, Government Incentives to Investors. Industrial Real Estate possibilities in Phoenix Park and Tamana InTech Park were highlighted. There was also an interactive Q&A session during this presentation.

BANGLADESH

Md. Lutfur Rahman

Deputy High Commissioner
Bangladesh Deputy High Commission

Md. Lutfur Rahman was born in Thakurgaon, Bangladesh on 16 October, 1970. He graduated from the Bangladesh University of Engineering and Technology in 1995. He started his career by joining the Ministry of Foreign Affairs of the government of Bangladesh in 1998. He served as the Assistant Secretary in the headquarters for 2 years before getting posted to Bangladesh Embassy in Hanoi, Vietnam in 2000 and continued to serve till 2004. Then he served as the first Secretary for two years at the Bangladesh High Commission in Karachi, Pakistan. After serving 2 years in Dhaka as a Director of Headquarters, he joined the Bangladesh mission in Riyadh, Saudi Arabia as Counsellor. After Riyadh, Mr. Rahman worked in the Bangladesh Embassy at Rabat, Morocco as Charge d'Affaires in 2010. He returned to Bangladesh in 2014 and was promoted Director General and led the Consular and Welfare Wing and the External Publicity Wing respectively before being appointed to Bangladesh Deputy High Commission in India.

Bangladesh, country of South Asia, located in the delta of the Padma [Ganga] and Jamuna (Brahmaputra) rivers in the north-eastern part of the Indian subcontinent.

Bangladesh is undergoing substantial economic and social change, and this will intensify in the coming decades. Fundamental forces are at play, involving rapid industrialization, structural change in the economy, and substantial rural-urban migration. These processes bring a host of developmental pressures, and a range of potential inequities.

Bangladesh retains a deep commitment to social solidarity and to a progressive development agenda. The country was one of the most successful development achievers in the MDG era and continues to do well in terms of the SDGs, including being on target to have zero extreme poverty by 2030.

The year 2021 will be historic in India-Bangladesh relations as both countries would be commemorating the fiftieth anniversary of the Liberation War and the establishment of diplomatic relations between India and Bangladesh. Both countries are making efforts to jointly organize several activities to commemorate these two epochal events in India, Bangladesh and in other countries.

Business Investments in Bangladesh

Increasing awareness about investment opportunities and continuous work on improving ease of doing business will help Bangladesh attract Indian businesses.

Bangladeshi Top Business Opportunities 2021 – Power Banks.
Bangladesh's top profitable small business ideas today.

With a population of just over 160 million, the country has a strong consumer demand and the consumer goods market, ranging from white goods and clothes to fintech, is growing fast. We're invested in RFL Electronics, an electronic goods manufacturer and one of the largest employers in the country outside of the garment industry. This investment has shown that producing these goods domestically can help to make them more affordable and drive consumption – and further develop the strength of the domestic manufacturing base. Furthermore, as an investor and partner to RFL, we've been able to help implement key environmental and social changes, which can bring real added value to a business and help its ambitions to expand into international markets.

The flourishing trade ties and friendship between India and Bangladesh

Bangladesh is India's biggest trade and development partner in South Asia. Over the recent years, ties between the two countries have received a major boost in terms of trade, connectivity and infrastructure development.

On March 9, 2021 Maitri Setu--a 1.9 km bridge built over Feni river joining Sabroom in India and Ramgarh in Bangladesh was inaugurated. The bridge will facilitate trade and people to people movement between the two nations. "The name 'Maitri Setu' symbolizes growing bilateral relations and friendly ties between India and Bangladesh.

Bangladesh is India's biggest development partner, with New Dehli extending 3 Lines of Credits (LOC) to Dhaka in the last 8 years amounting to \$8 billion for development of infrastructure in sectors including roads, railways, shipping and ports. Likewise, cooperation in the power sector has evolved with Bangladesh currently importing 1160 MW of power from India.

Mr. IRFAN SAYYED

Labour Welfare (Union Leader - Maharashtra Mazdoor Sanghatana)

Mr. Sayyed grew up in a typical middle-class family. He completed his undergraduate education in Pune, a city founded on the backs of hardworking people. He pursued a career in the hotel and construction industry.

A number of experiences in his life inspired him to establish "Maharashtra Mazdoor Sanghatana." with the assistance of a colleague. Mr. Sayyed has seen many good and bad things happen in this city, as well as many agitations and battles of hardworking people. Many of his acquaintances in the general family and the working class are aware of their issues and challenges, so he felt motivated to help this hard-working disorganized working class.

The Maharashtra Mazdoor Sanghatana is working tirelessly to alleviate the problems of the workers in the labour sector in Pimpri Chinchwad and Pune and the Mathadi, Mapadi, Construction, and General Workers, and run from time to time to help the workers through the union and solve their problems. Impressed by the work done by him and his colleagues through this organization, today more than 16,000 members have joined.

The Maharashtra Mazdoor Sanghatana is running a successful race by resolving the concerns of the workers via reconciliation and winning the trust of both the employees and the management. Mr. Irfan Sayyed established the Saad Social Foundation in order to further his social activities.

Mr. Anant Jog

Contribution For Indian Film Industry

Anant Jog is an Indian film and television actor who acts in Hindi and Marathi films.

He has also acted in Garv Pride and Honour in 2004. Anant Jog is popularly known for his character in 'Shanghai', 'Singham' and 'Rowdy Rathore'.

Anant Jog was born in Mumbai, Maharashtra to a veteran actress Shanta Jog. He has a brother who is a doctor. His father had a transfer duty, and thus, he completed his schooling from various places like Nasik, Aurangabad, Nanded, and Kolhapur. He did not go to college as he didn't have faith in the Indian Education system.

More than serial and theatre, he has a soft corner for cinema. Anant Jog entered this industry through Ekankika Competition. He used to participate in various drama competitions, and while working in theatre, Raja Pargaokar gave him his first break. Later, Anant Jog made his debut through the movie 'Ameer Aadmi Gharib Aadmi' with Amitabh Bachchan and Zeenat Aman. The movie was produced by Amjad Khan. Soon he received various offers and did many big banner films.

In 1996, he acted in the movie 'Chaahat' directed by Mahesh Bhatt, where he worked with actors like Naseeruddin Shah, Shahrukh Khan, Pooja Bhatt, and Ramya Krishna. In 2011, he worked with Ajay Devgan in a blockbuster movie 'Singham', which was directed by Rohit Shetty, where he played the role of Minister Anant Narvekar. His dialogue 'nonsense' became quite popular.

His Jaggu's character in 'Shanghai' was also well appreciated. 'Singham' and 'Shanghai' proved to be the turning points in his life. Meanwhile, he also worked with Akshay Kumar in 'Rowdy Rathore', which was directed by Prabhu Deva and produced by Sanjay Leela Bhansali and Ronnie Screwvala.

LaGrace

LaGrace Group of Companies is a trustworthy brand in the field of Infrastructure, Real Estate, Import Export, Agriculture, and Software. It has created its own mark in each field with a team of creative and brilliant personalities. LaGrace Decorworld started with small projects of interior decoration and went big owing to their hard work and their hunger for achieving perfection. The dedication and innovations of their people helped LaGrace enter the world of real estate. It is currently working on 5 big projects. LaGrace Infraworld is redefining the infrastructure with ground-breaking products which helps smart construction, minimum use of material, improves the speed of construction in minimum manpower.

LaGrace uses recyclable material for construction, contributing its share to the environment. The Panels developed by LaGrace have the best strength value in the market and have a very efficient load bearing capacity. Experts at LaGrace Agro Pvt. Ltd. have researched for years to come up with newer and healthier solutions for the agricultural sector. They have come up with pure and organic product range comprising of 35 products for agriculture. Prashant is the wing of the company that provides solutions for the import export industry of India. It is consistently growing with tie-ups with multiple countries and is currently working with the South African and Gulf countries. Shivashree Prashant Jadhav is a leader who has taken this group from the ground to the pinnacles of success. He is someone who has always wanted to be an entrepreneur, and he takes his inspiration from Chhatrapati Shivaji Maharaj.

The wisdom he has gathered over the years has helped him shape and grow LaGrace group of companies. He is a visionary who is leading the market with his dedication.

MEMORANDUM OF UNDERSTANDING - GIBF

Global India Business Forum Has Signed Mou With
Knowledge Chamber Of Commerce And Industry & Indo Latin American Chamber Of Commerce, Ilacc.

Knowledge Chamber Of Commerce And Industry

As a Knowledge Chamber for Corporate India, KCCI articulates the genuine, legitimate needs and interests of its members. Its mission is to impact the policy and legislative environment to foster balanced economic, industrial and social development.

KCCI is targeting the interests of more direct and indirect members across the country with management skills and expertise of professionals to set itself apart as a Chamber with a difference.

Dr. Dilip Sonune

Dr. Dilip Sonune currently holds the designation of Director - Veterinary Services at Wiggles.in (Sixth Sense Retail Pvt. Ltd.) - a petcare startup in the preventive healthcare space offering products and services, with its headquarters in Pune and presence in Pune and Mumbai. Since inception, he has overseen the management, implementation, growth and expansion of veterinary services, new product launches, raw material testing, formulation of veterinary products with the Research & Development team and managed the entire team of veterinarians, paravets, groomers and pet handlers Pan-India.

He has been an avid part of the marketing, sales and social media strategy, handled escalations and grievances with customers, shared inputs to improve client relationships and guided the customer support team. His knowledge of product development and product launch timelines based on market need and analysis, is profound. He has also handled blood transfusions and critical care in pets seamlessly at the Petsville (Dog Boarding) and acted as mentor and guide to junior veterinarians.

Prior to this, he has been the Veterinary Physician & Surgeon at the Animal Care Super Speciality Hospital at Banjara Hills, Hyderabad, Telangana and has worked as the Practitioner for Small Animals, administered treatment to dogs and cats, handled X ray diagnostics, conducted laboratory tests, MRIs, CT Scans and handled emergencies and critical care management for pets.

During the lockdown and the COVID-19 pandemic crisis last year in 2020, when there was a scarcity of veterinarians due to travel restrictions and very few vet clinics were open, he has provided commendable 24 hours service to pets in need of emergency care and saved countless pets single handedly. He has also been one of the pioneers to begin the #BondedByBlood Initiative launched by Wiggles.in in 2021 which aims to create an online repository of pet blood donors and helps to unite pet blood donors with pet recipients in need of blood during emergencies.

His Technical Skills Include

- Small Animal Practitioner
- Cattle & Buffalo Livestock Practitioner
- Poultry Management
- Clinical Trials of Products and Testing

He has over 10+ years of experience in the veterinary field and has completed his B.V.Sc. & A.H from the College of Veterinary and Animal Sciences, Parbhani under the Maharashtra Animal and Fishery Sciences University in Nagpur, Maharashtra. He has done an Online Certificate Course in Animal Welfare and Behaviour from the Edinburgh University in UK. He has also completed an Online Course in Drug Development from UC San Diego.

MR. Rahul Deshpande

Classical Music Singer

Rahul Deshpande is an Indian classical music singer from Pune, India. He is the grandson of the well-known late Pandit Vasantrao Deshpande of Patiala Gharana.

Rahul developed his interest in vocal music by studying the music of Pandit Kumar Gandharva. Initially, he sought guidance from Ushatai Chipalkatti and Pandit Kumar Gandharva's son Mukul Shivputra. He further learned music under the tutelage of Pandit Gangadharbuva Pimpalkhare and Dr. Madhusudhan Patwardhan. He also learned playing tabla from Pandit Suresh Samant. Also, the legacy of Kumarji's search of including Nirguni Bhajans in the conventional form of music has been brilliantly carried on by Rahul.

Rahul's repertoire includes renditions from classical ragas to khayal, thumri, dadra, natyageet, bhajan, gazal and bhaavgeet. He feels that by binding oneself to one Gharana system limits an artist's growth and thinking. There are many good styles different Gharanas have, which can be included in one's singing in order to enrich it.

Rahul has achieved prominence as a creative musical performer from an early age. Several eminent critics have noted the similarity between Rahul's approach and that of his grandfather's. Rahul's performance at last year's 'Sawai Gandharva' won much appreciation from his listeners. Rahul's performance in the play "Katyar Kaljat Ghusli" has received great appraisal from home as well as abroad. He is also the judge on Zee Marathi's popular reality TV show "Sa Re Ga Ma Pa - Little Champs".

Achievements and recognition:

- Rasikagrani Dattopant Deshpande Award, presented to him at the Sawai Gandharva Music Festival
- Sudhir Phadke Award for his outstanding achievements at a young age.

- Rahul has given several national and international performances, and has released a number of audio cassettes of his classical and semiclassical performances. He is regularly featured in TV programs like Soor Taal and Nakshatranche Dene on Indian channels such as E-TV, Alpha TV, and Doordarshan. He currently serves as a judge for Idea SaReGaMaPa Little Champs-2, a musical show on Zee Marathi.

Also, every year he arranges VASANTOTSAV in the memory of his grandfather Shree Vasantrao Deshpande. Various singers and musicians demonstrate their skills and are applauded by a very worthy audience.

Kaizen

(Mr. Vineet Handa - Founder)

Established in 2008, Kaizen is a leading Public Relations and Digital Media Agency, with PAN India operations. Kaizen has worked with prestigious international and Indian brands and has received various industry awards and accolades for campaigns undertaken for its clients. Kaizen's strength to value its relationship with the media gives us a distinct edge and unmatched media access across the country.

BHUTAN

Bhutan a beautiful and remote kingdom nestling in the Himalayas between its powerful neighbours, India and China.

Almost completely cut off for centuries, it has tried to let in some aspects of the outside world while fiercely guarding its ancient traditions.

The Bhutanese name for Bhutan, Druk Yul, means "Land of the Thunder Dragon" and it only began to open up to outsiders in the 1970s.

The Wangchuck hereditary monarchy has wielded power since 1907. But Bhutan became a two-party parliamentary democracy after elections in March 2008.

Until 1974, Bhutan was closed to the outside world. Now people can visit the country, but only in small numbers. The only airport is in Paro District. The country is bordered on the south by the Republic of India and on the north by China. The Indian state of Sikkim separates Bhutan and Nepal. The main export of Bhutan is hydroelectricity which is sold to India. The economy of Bhutan is very small but is growing quickly. The currency is the Ngultrum, which is pegged at par with the Indian rupee.

Bhutan is the only carbon-neutral and carbon-negative country in the entire world.

Some of the interesting facts of Bhutan

Bhutan is the first country in the world with specific constitutional obligations on its people to protect the environment. Among its requirements: At least 60 percent of the nation must remain under forest cover at all times.

Thimpu is one of just two capital cities in Asia that does not have a single traffic light. (The other is Pyongyang, North Korea.) There was such public outcry when local officials installed a single signal that it was quickly removed, and a traffic officer was re-assigned to the intersection.

The only nation in the world where the sale of tobacco is banned.

At 24,840 feet, Gangkhar Puensum is the highest point in Bhutan—and the highest unclimbed mountain in the world.

Bhutan is one of the last countries in the world to introduce television to its people. The government lifted a ban on TV—and on the Internet—only 11 years ago.

Nima Nima

Member of Parliament - National Council of Bhutan

2004 started my career as a high school teacher. 2007 went for studies in Australia. 2009 -2012 lecturer in Paro College of Education. 2013 got elected to the National Council of Bhutan as a representative from Bumthang. Completed my first term as an MP in 2018 and got re-elected and currently a serving member of the National Council. Served as Chair of a few committees in the National Council.

Tul Bahadur Chhettri

Beekeepers Co-operative of Bhutan

Private Venture By

Mr. Fritz Maurer, in 1986, who introduced European honeybee (*Apis Mellifera*) in Bumthang valley. Based on the experienced gain from the private beekeeping, the Royal Government of Bhutan in collaboration with the donor aid from Helvetas, initiated the sound base in 1987 for introducing beekeeping in Bumthang. The Joint RGoB-Helvetas Beekeeping Development Project (BDP) launched for a period from 1987 to 1992, focused on establishment of successful apiary based in Bumthang district and training of the breeders and technicians on bee husbandry.

The project had the following objectives:

- Improve pollination of fruit and other crops.
- Produce sufficient honey for domestic demand and for possible export in later stages.
- Generate income to the farmers and for other persons interested in beekeeping.
- Produce indigenous medicine and ointments out of wax, propolis and jelly.
- Establishment of beekeepers association of Bhutan.

BHUTAN EXPERT TRAVELS

We have experienced travel guides who will treat you with unforgettable experiences and take you to the heart of Bhutan. Our years of experience in travel services have also helped us discover new things about our own country that were not known to us before. Believing us is the only way to prove our memorable travel services to you. We have been accredited by our government in providing quality travel services. And we are proud to have dedicated travel experts working with us to serve you.

SHERAB AKA DORJI DEMA

The journey started in the Year 2007, when a mid-twenty's girl Dorji Dema from the land of thunder dragon, take over her father's business (started in 1990's) of a small retail shop of garments and groceries, with no prior experience of business at all, after his demise. She named her shop "Sherab Tshongkhag". Sherab, the name with which her close loved ones calls her.

Initially she used to sell items that were required for new born, in various occasions, deaths, etc. along with groceries and basic garments. Then she started hoarding all those items which were not available in other shops and items which were required by communities on a daily basis. She solved the problem of people who used to walk hours just to buy some small items. Additionally her shop provides services even in odd hours in emergency and in the hour of need. She expanded her catalogue with many different items such as fashionable garments, foot wears to cater younger generation along with school uniforms, stationaries for students etc.

Norbu Zin

Manager Wangda Production and Manufacturing

Traditional Bhutanese Textiles and Embroideries

The business that my family operates foretells the stories of excellence traditional craftsmanship of our country as we get to deal with different local people who are skilled in their locality products. Moreover it brings the sense of preserving our unique culture, tradition and craftsmanship in this tech based era.

Wangchuk Kuenga and Rinzin Wangchuk

Bhutan Herbal Tea, Bumthang

Bhutan Herbal Tea is a partnered venture between Mr. Rinzin Wangchuk and Mr. Wangchuk Kuenga.

Bhutan Herbal Tea specializes in cultivation and production of premium herbals teas that are grown in pollution free environment of pristine Himalayan atmosphere. The farm was established in March 2016 and at present it is a ten acre farm. It is the first and only commercial herbal tea farm in the country and all its products are 100% organic certified by Bhutan Agriculture and Food Regulatory Authority (BAFRA) under the Ministry of Agriculture and Forest.

Currently, Bhutan Herbal Tea produces chamomile tea, peppermint tea, lemon verbena tea, hypericum tea, and seabuckthorn tea in assortment of packages convenient for daily use as well as for souvenirs and gifts. Ever since its establishment, we had been marketing our products locally across the country. There has been a minimal export to India and Taiwan.

Bhutan Herbal Tea was awarded the Rural Entrepreneur of the Year in 2018 by the Department of Cottage and Small Industries under the Ministry of External Affairs in Thimphu. It was also one of the five winners of the Bhutan-India Startup Summit, February 2020.

Jambay Johny

Company name: Bhutan Natural Meadery & Brewery

Product/Service: Honey wine (different flavors), honey vinegar, honey, Bee propolis tincture and Bee propolis lip balm.

Bhutan Meadeary and Brewery is an aggregator that tries to add value to pure honey harvested

in Bumthang valley. The meadeary and brewery works with bee farmers in the valley and add value to their pure honey by producing honey products which are lightly alcoholic and refreshing. The main products of Bhutan Meadeary and Brewery are different flavored honey wines, honey

beer (Braggots) and honey water. The company is a small enterprise employing 5 people with ambition to grow in future to add value to the unique pure honey being produced in the valley.

The company aspires to work with bee groups in providing alternative market for their honey other than with just raw honey being sold in the market currently.

We hope that honey drinks as elixirs will revolutionize the unique honey drinks sector in the years ahead.

Tshewang Dem Tshejor's Ayzey

"Tshejor's Ayzey" is a brand name and a food manufacturing firm that offers preservative free packaged chili pastes which is home-made, using traditional ingredients and innovative recipes without any preservatives and less oil. It is a vegetarian product, fiery hot and spicy with unique tastes and flavors and nutritious with high energy and less fat content.

The products serve as appetizers and are commonly used with rice, bread or flatbread and even as an accompaniment with drinks. It took Tshejor's Ayzey 10 years to come up with the final and perfect products. It has seven different varieties of flavors and made with various organic ingredients such as chili powder, Sichuan pepper, salt, oil, garlic and ginger as the base ingredients.

KD Enterprise (Mrs. Sangay Pelzom)

KD Enterprise generally performs the majority of the production at home with fewer manpower and equipment. Which is why, our enterprise can be safely categorized as cottage industry oriented in terms of production method and volume. After the products are carefully packaged and labeled, it is being distributed in and around Thimphu using the distribution network of various local stores. At the current rate, all products are only being sold within the country but in the longer run, it is plausible that there will be International market demand.

This can be a great opportunity for KD Enterprise to expand the business to enjoy larger economies of scale and greater exposure to the global market.

One of the major challenges we face as a SME is having little or no professional marketing components. It is only through word-of-mouth and individual contacts that the products are familiarized and advertised for sale. Adequate order is garnered using this marketing strategy but in the face of the digital era, modern marketing is deemed necessary.

Multiline Agro Industries, a family of farmers

In order to know how the highly educated generation of farmers in the state does quality business in the agricultural industry, we must understand the path of 'Multiline Agro Industries'.

Milind Barve, a farmer's son from Mavla, set up a multiline company in Pune after quitting a well-paying job.

After completing his post-graduate studies in organic chemistry, he joined Sudarshan Chemicals Industries. While working in pesticide research and development there for twelve years, he was determined to become an entrepreneur himself, and also for the welfare of the farmers. For this, father Mr. Manohar and mother Mrs. Manisha raised the strength of twelve elephants behind Milindrao. So while he was a research and development manager, he quit his job in 2001 out of stubbornness with no business background at home.

He became a consultant for companies in the agro-industry.

At the same time, Mr. Chandanbhai Shah, Director, Evergreen Micronutrients, said,

Under the guidance of Shri Ravindraji Agarwal and Shri Vinayji Sanghvi of UBKM, he started his journey towards entrepreneurship. Of course, his scientist wife Mrs. Shital as well as brothers Dinesh and Sachin also played an important role in the establishment of Multiline.

Since 2006, Multiline has introduced separate products for crop growth and protection. However, in the first phase, only Institutional Marketing (Institutional Cell) is run. This journey started by Milindrao with hard work has now turned into a big company. "We have opened a well-equipped NABL accredited laboratory in Pune for industry and agriculture. Due to quality service and research till date we have been able to produce 25 to 30 products for the farmers," informed Mr. Barve.

Multiline introduced the habit of soil-water testing to farmers 15 years ago. "You decide whether you want to buy our products or not. But, check the soil-water first. Then decide which crop to take. Then plan for crop nutrient management. Find out which foods are in short supply, spend accordingly, and decide which company's products to use in the end," the company said in a statement. That is why farmers started liking the company's integrity and products. The central government is now talking about doubling the income of farmers. But, to increase profits, reduce production costs first. For this, 'Multiline' has been advising to do classical farming since 2006.

Toxic food is increasing residue-free farming around the world and in India. Organic foods are available for that. However, pesticides are mainly chemical. Multiline recognized this need and created unique products.

"We have been committed from the outset to provide quality indigenous and organic crop protection products to farmers engaged in organic or chemical farming. Dimeite, Hunter, Antivirus, Paste-Off with completely organic and pesticide residue free. These products were created. It contains natural pests and disease-fighting chemicals made from ayurvedic plant extracts.

Giving top priority to soil fertility, we have introduced 'Smart Lifter' product which makes the soil humid and nutritious.

Recognizing the needs of the farmers, we have been producing 'Crop and Stage Specific' products since 2010. The objective was to increase the income of the farmers by avoiding unnecessary expenses and to give maximum benefit to the farmers at minimum cost, said Mr. Barve.

"Many companies claim to have organic products. However, they do not provide evidence. Multiline has tested the quality of its products by submitting samples to the laboratories of the Department of Agriculture.

Multiline has developed five products for organic crop protection.

What is special is that the completely organic product 'Blightel', which prevents oily stains on pomegranates, has helped the farmers a lot.

We are constantly thinking about what can be done to identify the problems of the farmers.

The oil blight had put pomegranate growers in a major financial crisis. The orchards that had been harvested had to be removed.

That's why, realizing the need for this, we immediately created the product 'Blightel'.

Delhi Police Public Library

Supported by: GAIL (India) Limited | Managed by: Shikhar

POLICE PUBLIC LIBRARY a unique Community policing initiative of Delhi police started on 22nd February 2012 in association with Shikhar Organisation for social development for the required co-ordination and expertise to conduct it, running in the premises of police station itself in order to bridge the gap between general public & police, & also to encourage the habit of reading among general public particularly girls. It's a role model in itself.

The Uniqueness of this library is that, In India it is the first project of community-policing which has been running for such a long time. Police is connecting with every section of the society. Through this project, the youths are getting benefit after taking guidance from this library. This initiative was taken to lay the foundation of a good society.

Facilities provided by Delhi Police Public Library:

- ▶ A conducive environment for reading
- ▶ Career counselling to youth.
- ▶ Basic training to general population about FIR, police system etc.
- ▶ Employability Trainings
- ▶ Information Centre
- ▶ Woman Safety Programmes
- ▶ Police Public Interactions
- ▶ Lectures by Police Personnel (Life stories)
- ▶ Sports and youth development programmes
- ▶ Legal awareness programmes
- ▶ Cultural Programmes
- ▶ Free Entrance Coaching such as SSC, B. Tech, Diploma Engineering, BA courses, B.Ed., ETE, LLB, BBS, B.Com, BSW, MSW and Travel & Tourism for getting admissions and jobs as well.

Police Public Library organizes different Social Interactive programs & activities in order to engage general public specially youth with police. This library is managed by the staff of Shikhar. There is no membership fee to use the library. Different books are available in the library such as fiction, non-fiction, encyclopaedia, competitive books, and different newspapers. This is a multi-tasking platform.

Economic Bilateral Agreements and MOU's –Global India Business Forum

India-Mauritius to sign a comprehensive economic pact in near future

The India-Mauritius CECPA will be the first trade agreement to be signed by India with a country in Africa.

The Agreement is a limited agreement, which will cover Trade in Goods, Rules of Origin, Trade in Services, Technical Barriers to Trade (TBT), Sanitary and Phytosanitary (SPS) measures, Dispute Settlement, Movement of Natural Persons, Telecom, Financial services, Customs Procedures and Cooperation in other Areas.

Australia-India Comprehensive Economic Cooperation Agreement (AI-CECA)

At the 17th India-Australia Joint Ministerial Commission meeting on 30 September 2021, Ministers Tehan and Goyal formally re-launched CECA negotiations and reaffirmed their commitment to conclude a CECA, including to reach an interim agreement by December 2021 to liberalize and deepen bilateral trade in goods and services, and to conclude the negotiations on a full CECA by the end of 2022.

India, UAE plan to lift bilateral trade to \$100 billion in 5 years via new pact

India and United Arab Emirates plan to conclude a Comprehensive Economic Partnership Agreement (CEPA) by the end of the year with the aim to lift trade between the two countries by 70% in five years, trade ministers of both countries said.

"A new strategic economic agreement is expected to increase bilateral trade in goods to \$100 billion within five years of the signed agreement," the ministers said in a joint statement.

India, UK agree on investment boost at Economic and Financial Dialogue

This includes a USD 1 billion investment from CDC, the UK's development finance institution in green projects in India, joint investments by both governments to support companies working on innovative green tech solutions, and a new USD 200 million private and multilateral investment into the joint Green Growth Equity Fund which invests in Indian renewable energy.

At the EFD, both ministers agreed to be ambitious when considering services in the upcoming UK-India trade negotiations and strengthen the financial market collaboration efforts already underway to finance growth.

Trinidad and Tobago Offers Attractive Investment Opportunities

His Excellency Dr. Roger Gopaul, High Commissioner of Trinidad and Tobago in New Delhi, India presented his Letters of Credence to His Excellency Shri Ram Nath Kovind, President of the Republic of India on May 21, 2020 at the Ministry of External Affairs, New Delhi, India. The Presentation of Credentials ceremony became India's first to have taken place virtually due to the Covid-19 pandemic restrictions. Using the digital platform to interact with the President of the Republic of India, His Excellency Dr. Gopaul presented his Letters of Credence. His Excellency Dr. Gopaul conveyed greetings to the President of the Republic of India on behalf of the Government and People of the Republic of Trinidad and Tobago and renewed commitment to the advancement of diplomatic, strategic and commercial relations between the two nations. The President of the Republic of India extended best wishes to High Commissioner Gopaul for a successful tour in India. The President of India, His Excellency Shri Ram Nath Kovind, cordially acknowledged the historic ties between both countries and India's continued support to the strengthening of those relations.

H.E Dr. Roger Gopaul
High Commissioner, Republic of Trinidad and Tobago

T rinidad and obago

Located at the crossroads of major shipping and flight routes within the Americas, the twin-island republic of Trinidad and Tobago is a preferred location for foreign investment. The country, located 11km off the North-coast of Venezuela has a strong economy, prime regional positioning and investor- friendly climate and policies. It is one of the Caribbean's largest exporters to the USA with firm trade relations across the region and in Europe, an efficient financial system with healthy economic indicators and is currently home to over 400 multinational companies.

This country possesses a unique combination of operational benefits that incentivize site selectors to choose the location as a preferred business destination for opportunities in Business Process Outsourcing, Electricity Intensive Manufacturing, Third Party Logistics, Warehouse & Distribution, Lay-up of Vessels and Offshore Bulk Transshipment Port.

Unlike its regional neighbors, Trinidad and Tobago's southernmost location within the Caribbean Basin puts it safely below the Atlantic hurricane belt thus minimizing any resulting downtime during the annual hurricane season.

Its central location coupled with the existence of two (2) international ports that service over 63 international shipping lines provide direct access to distribution markets in South, Central and North America. With one of the lowest electricity rates worldwide at \$0.07 Kwh fully loaded, business start-up and operational costs are minimized.

Commercial needs are supported by this country's well-defined infrastructure and facilities, including an extensive transportation network, reliable power generation facilities, 5 undersea fibre connections and access to modern ICT technology including 5G. Through CARICOM bilateral trade agreements and other preferential trading agreements, businesses resident in Trinidad and Tobago benefit from preferential access to a consumer market of approximately 942 million.

Trinidad and Tobago

Continued investment in the ICT sector has made Trinidad and Tobago #1 in the LATAM and Caribbean region for IT Infrastructure (The Global Information Technology Report 2016), while over 100 years of operating in the oil and gas industry has burgeoned the requisite infrastructure for a manufacturing hub in the English-speaking Caribbean.

A multitude of real estate options are available for businesses wanting to locate here. State owned property is available for lease. Factory shells and land space are available for lease at the 144 acre Phoenix Park Industrial Estate, which is currently under construction and estimated to be completed in Q1 of 2022. Phoenix Park, located in Central Trinidad is only 10 minutes away from the country's second largest port – the Port of Point Lisas - providing exporters with easy access to regional and global consumer markets.

Space is also available at the state-owned Tamana InTech Park, which is conveniently located away from city congestion yet only 10 minutes driving time from the Piarco International Airport and approximately 45km from the Port of Port of Spain. The University of Trinidad and Tobago (UTT) campus, is one of its anchor tenants and has strategic alliances with a number of international academic institutions including The University of Texas at Austin, University of Cambridge and the John Hopkins Medicine International LLC.

As the national investment promotion agency, InvesTT aligned to the Ministry of Trade and Industry is the first point of contact for investors seeking investment opportunities in Trinidad and Tobago. We

work in partnership with all investors from the beginning of their site selection process straight through to the establishment of business and beyond.

Godrej & Boyce Mfg. Co. Ltd.

India's Best Appliance, Consumable and Durable Brand

Godrej & Boyce Mfg. Co. Ltd.

Engineering excellence and a strong pioneering spirit continues to underscore the operating philosophy of Godrej & Boyce Mfg. Co. Ltd. (G&B), the flagship company of the Godrej Group. Since 1897, G&B has played a pivotal role in India's economic growth and created sustainable value for all its stakeholders through its products and services across ten industries.

With revenues of INR 11,500 crore (FY 2019-20) and over 14,000 committed employees, G&B's diverse presence across 10 industries – from building complex bespoke engineering solutions to making branded consumer goods like appliances, furniture, locks and security solutions. G&B positively impacts the lives of one-third of India's population. Through international subsidiaries and joint ventures, the company's products have also established a strong global footprint across 5 continents.

62 YEARS OF MAKING
**THOUGHTFUL APPLIANCES
FOR INDIA.**

G&B's B2B businesses have been built through strategic investments in high-end engineering capabilities and manufacturing scale. The company is a key partner for India's space missions and numerous satellite launches as well as a key supplier for complex engineered solutions for renewable energy, power transmission and other critical industrial infrastructure globally. G&B's security solutions have given the company a key role in securing national borders, cities, bank vaults, institutions and homes across India.

An intrinsic understanding of customers for over 123 years has helped G&B's businesses to constantly innovate and build products and solutions with clarity of purpose. These are manufactured in G&B's quality-driven and technology-led facilities and distributed through a national and international network of partners.

Bennett, Coleman & Co.Ltd.

India's Best Prints Media

Bennett, Coleman and Company Limited (B.C.C.L. and The Times Group), is an Indian media conglomerate headquartered in Mumbai, Maharashtra.

The Times of India press published a number of influential English (Illustrated Weekly of India) and Hindi magazines (Dharmyug, Sarika, Dinaman, Parag), Times and Journal of Commerce were first published, a predecessor of what would become The Times of India. While starting as a biweekly paper, it was converted to a daily in 1850 and in 1859 the paper was merged with two other papers into the Bombay Times and Standard under editor Robert Knight. Two years later, in 1861, the paper got a more national scope with the title The Times of India. The company expanded its presence in the Indian media sphere by founding different papers and local editions of The Times of India.

Subsequently, the paper saw its ownership changed several times until 1892 The company. The company expanded its presence in the Indian media sphere by founding different papers and local editions of The Times of India. BCCL is India's most diversified media company with brands across publishing, television, internet, radio & outdoor domains. The story of BCCL goes back to Nov. 3rd, 1838, when the flagship brand The Times of India, was published as a bi-weekly, The Bombay Times and Journal of Commerce. Since then, it has consistently moved up the growth curve by entering new markets & launching new titles. A simple guiding thought—treat newspaper not as a product but as a Brand, whose prime objective is to serve its readers & advertisers.

Driven by the indomitable spirit to question the conventional wisdom. Learning & Innovative : BCCL are regarded as one of the most innovative publishing companies. The unique 'Brand Capital model' is considered amongst the most innovative ideas. Previous innovations include Invitation Pricing, Combos, Space Drawing Rights & Advertorial Supplements. Provide the employees opportunities, through world-class training programs with ISB, Wharton & other global institutions. If you are curious & look for avenues of continuous improvement, this is the place to be! Great People : 'Finest minds who inspire & drive innovative initiatives, build trust & encourage employees to achieve optimal performance' is the Hallmark of leadership team.

One internally cohesive & disciplined team of people from diverse backgrounds. Invest in our people & policies are designed for their long-term happiness.

Mr. Arvind Aggarwal

Arvind Aggarwal is a serial entrepreneur and the Chairman of the Fluid AI Group. He has served as the chief strategist and visionary behind the group growth in the field of Artificial Intelligence. He is focussed on bringing the power of AI to organisations and individuals around the world.

Arvind is a believer in the power of technology and has led the Fluid AI team to grow to a 50 person team across 6 countries. Arvind has previously won the Nirayat Shree Award from the President of India and the Award for Highest Exports in Engineering Products from the Governor of the Reserve Bank of India.

He also leads the realty division of the group which is one of the largest providers of on demand industrial facilities in India. The realty division of the group has enabled various multinational companies to instantly set up Industrial Operations in the country.

Fluid AI

Fluid AI is one of the leaders in the Artificial Intelligence with customers across 15 countries and three patents granted globally.

The company builds highly scalable Artificial Intelligence Platforms which can pull data from across the organisation and provide highly accurate predictions and decisions. The company enables Multi Channel Bots across Website, WhatsApp, Phone Calls which enable our customers to communicate at scale with their users. The company has enabled over 200 million communications and enabled our customers to increase profits by over 500 million Dollars.

Fluid AI was on the cover of Forbes Magazine and was recognized by Gartner and Forrester as a leader in the space of AI. The company has created the world's first AI powered Avatar of Warren Buffet which is on the cover of 100-year anniversary of Forbes Internationally.

The company has worked with Global Multinational Companies such as MasterCard, Bank of America, Barclays, Société Générale, Vodafone, Toyota, Capgemini, Accenture, Deloitte.

The company was founded by Raghav Aggarwal who dropped out of IIM Ahmedabad and Abhinav Aggarwal who dropped out of ISB Hyderabad to start the company.

ICATT Air Ambulance Service

Fresh breath of Air for the Aviation Industry.

Air Ambulance segment : the only life saver for Aviation in India:

Dr. Shalini Nalwad and Dr Rahul Singh Sardar, Founders of ICATT Air Ambulance Service, started the Aeromedical Operations in India in 2017. They have exponentially grown to be the largest Air Ambulance Service provider in Asia over this period.

Aviation as an industry in India, experienced serious setbacks in the recent past. Kingfisher, Jet Airways, Sahara, Air Deccan, these Airlines had collapsed or were collapsing when Corona sealed their fate completely. Even the Air Ambulance segment of Aviation saw setbacks when couple of organizations went into administration incurring heavy losses to their investors.

This was the Aviation industry ecosystem in India when these 2 Doctors, with absolutely no knowledge or experience of establishing and running a business, let alone an Aviation company, arrived at India.

They are Critical care specialist doctors, trained and experienced in UK for 12 years. They were part of the Aeromedical services of the NHS. They planned to return back home to India to set up a world class Air Ambulance service. They did that in 2016 and incorporated ICATT Air Ambulance Service in 2017. Having a slow start initially, they exponentially grew their business from, both the promoters doing all the operations themselves, to being the largest Air Ambulance service in Asia with more than 50 Flying Aero-Medical professionals and a robust Business development and corporate team.

Bringing in a completely new and innovative perspective of 'Out of Hospital' critical care practice, they emphasized on the quality of medical care rather than the aircraft. This was the master-stroke that this industry needed, achieving 2 major objectives. One was that more patients were saved and stabilized, ready to be air lifted and secondly and most importantly, the focus of the consumer was on the medical needs rather than the cost of aviation. Air ambulance became a necessity and the only survival factor rather than being a luxury.

Bringing in a completely new and innovative perspective of 'Out of Hospital' critical care practice, they emphasized on the quality of medical care rather than the aircraft. This was the master-stroke that this industry needed, achieving 2 major objectives. One was that more patients were saved and stabilized, ready to be air lifted and secondly and most importantly, the focus of the consumer was on the medical needs rather than the cost of aviation. Air ambulance became a necessity and the only survival factor rather than being a luxury.

Today, the market size is about 150 Air Ambulance transfers per month, of which ICATT commands more than 50% share. They have created a world record in doing the maximum number of ECMO transfers in the world (110 over the past year), more than 90% of all the vital organ airlifts in India and almost all the high-risk Neo-natal transfers in India. They have developed a highly skilled and experienced Leadership team within ICATT, with Satish Munoli as their Chief of Operations and Business Development, Rathnakar Ravuri as their Chief of Logistics and Para-Medical Services, Niranjana Yeslur as their Chief of ECMO and the Co-founder of Perfusion Services and Capt Karthik as their Chief of Air Operations.

The struggling aviation industry, which did less than 20% of their business on medical transportation, started getting more revenues in medical sorties than corporate ones. This resulted in an industry that had only 3 Aircraft flying medical sorties from Delhi in the past, to now 15 Aircraft doing medical transportation and not just from Delhi but other bases in India as well.

Since they were based in South India, they made Bangalore and Hyderabad, their operational bases. Today, Hyderabad has become a major hub for non-scheduled Medical Aviation, the largest one after Delhi and ICATT has a major role to play in it.

Helicopter industry in India was into a major regression. ICATT's model on HEMS – Helicopter Emergency Medical Service – will require a fleet of more than 35 helicopters in India for medical evacuations alone. ICATT will play a vital role in promoting the Helicopter industry in India because they are the only ones who have the training, experience and proof of concept of HEMS.

Dr. Shishir Puranik

(SS Professionals Campus)

SS Professionals Campus of Leelawati College of Commerce and Computer Studies is affiliated to Savitribai Phule Pune University. The Director of this institute is Dr. Shishir Puranik, who is a practicing paediatrician & neonatologist.

He has immense experience in the Education & Banking sector as well. SS preaches success and is committed to help all its students achieve it and prepare the students for excellence.

AGNI IAS ACADEMY

Profile

AGNI IAS ACADEMY was established in the year 2015 and registered under The Companies Act 2013 with the aim to spread Skills and Knowledge. AIA is pledged to increase and improve the capacity as well as the quality of the workforce in India. AIA ensures the better future of our country by empowering enhancing the skills to international standards and to set a benchmark across developing countries. We provide computing and peripheral courses, Communication skills and Soft skills for sales and services and educational courses like UPSC, TNPSC, SSC, RRB etc.

Achievements

500+ Students got quality skills 4 years of successful continuance.

Policy

Students seeking admission must be 18 years of age. School dropouts and migrate students. SSLC passed out students must go through the written examination which is conducted by AIA. We have limited seats of 25 candidates.

All students will be certified with AIA's official document after course completion. Training fees will be paid either by candidate or institute.

What is Skill ?

A skill is the ability to carry out a task with pre-determined results often within a given amount of time, energy, or both. Skill usually requires certain environmental stimuli and situations to assess the level of skill being shown and used.

Why do you have to choose AIA ?

AIA is the centre for skill development and training that leads student towards a better future in a short time frame. The Institute aims to fulfill the growing demand for skilled man power in India through its range of skill development vocational and job oriented courses. 100% job search assistance to help you land you in a national and multinational companies.

Short term job oriented programs with over 60% hands-on training that gets you trained and job ready faster.

Over 12 numbers of qualified staffs provide students with a full scale experience.

Dynamic job oriented courses that prepare you for a regarding career in you dream industry

Innovative training tools including role plays, video and audio presentation, games and activities offering an interactive learning atmosphere.

Government Project

We have done government skill training programme approved by Tamilnadu skill Development Corporation of India. They allotted 80 students for retail trainee associates. We take this opportunity and made the successful programme. These programme made AGNI IAS ACADEMY as one of the best and quality institution in Chennai (Tamilnadu).

DONATEKART

Mr. Sarang Kalidas Bobade -

Sarang is a Social entrepreneur who drives to make a lasting impact by leveraging technology at scale. He is a chemical engineer from the Institute of chemical technology, Mumbai. He runs an eCommerce-led crowdfunding platform by the name Donatekart.com where he is entirely revolutionizing the way people give donations to charities from cash to kind. Within 4 years of operations, Donatekart has incubated 800+ NGOs and mobilized more than 150 crore worth of products with the help of 800,000 Donors. Donatekart has received India's best social enterprise award, Nassom social innovation award, and are also invited by Bill Gate Foundation in Seattle.

Mr. Pranay Vora -

An MBA Finance grad from Hyderabad, Soon after finishing his MBA he joined Donatekart as a Finance associate and since then he's looked into various departments and currently works as Senior Operations Manager at Donatekart, Since then Pranay has been scaling up Donatekart Operations bringing corporate vendor partnership onboard such as Reliance Jio Mart, Big Basket, Amul India, Zomato, Pedigree, etc.. His people connecting skills and building relations with NGOs have brought a win-win situation to NGOs by getting the best-in-class products delivered to NGOs. Pranay has also overviewed the entire supply chain campaign like Dabbalwalas, Ganesh Murtikar, and Covid-19 Pandemic, a collective fund of more than 15 Cr for Mumbai Covid relief during the pandemic.

Making The Difference Charitable Trust

Ms. Dwiti Mehta has completed her Bachelor's degree in interior designing and has been working as a professional interior designer with different brands for the past 9 years. She has a keen interest in the field of art and her perseverance towards social work has been remarkable.

She has also been an inseparable part of "Making The Difference Charitable Trust" since 2015. Actively working as Vice President and trustee of "Making The Difference" she has spared time from her busy professional life towards the upliftment of the underprivileged sector of society.

Ms. Mehta has been on the field for the past 7 years helping kids of the underprivileged sector with education and counselling their parents about the importance of education. For the past couple of years, she has been a forefront warrior during the uncalled Covid phase. She has worked along with Making The Difference on the ground at different Covid centres and also planned and executed dry ration distribution to Dabbawallas, Street Vendors, Rickshawalas and many others.

Another pillar for "Making The Difference Charitable Trust" is Mr. Deepak Vishwakarma. Deepak Vishwakarma is a family man born in 1987 and started his professional career in 2006 as an Interior Designer. he has been a mentor for various upcoming youngsters and inspires them to excel in the field of interior designing. Working as an associate and later as a partner with high profile clients, he has lived a satisfying family life. The man had a vision within which marked the birth and beginning of Making The Difference Charitable Trust in 2014. Mr Vishwakarma, with the thought to be a part of social contribution, explained his vision to several others for them to be part of his social goal. He truly believes in teamwork and realises that it's just not one man but people collectively who actually make a difference in society. Education, being one of the most important pillars of any country's economic and social growth was a keen area of interest for him. Understanding the opportunities in the current education system and working for its betterment has been his major goal. Working on the idea of open school and promoting the Prime Minister's mantra of Beti Bachao and Beti Padhao, he has implemented the importance of education amongst the parents of the underprivileged sector of society and helped their children be self-independent through the tool of education.

He has worked along with local bodies in rural areas of Benaras in setting up open schools, reworked the infrastructure of different government schools with a friendly environment and distributed stationery materials. He had also diverted his attention from education to medicine when the country was fighting its battle against Covid-19. He was responsible for the distribution of hospital beds, Dry Ration Kits, Sanitizer, Mask, Oximeter, Meal for home quarantine patients, Oxygen Cylinders etc. Mr Vishwakarma has played a major role as a founder trustee and president of Making The Difference in setting up 117 Free Oxygen Connect centres in 7 different states of the country. He was also given a tag of "Oxygen Man" by a TV9 News channel for his achievements. Being an idle husband and caring father of 2 young kids he stood at the forefront along with Covid warriors to fulfil his social responsibility. He has been an epitome to several others to carry their personal, professional and social responsibilities with flying colours.

When the country was fighting for Oxygen requirements the brave individual had been an integral part of Making The Difference in setting up Oxygen centres in 7 different states of the country. She has definitely brought pride to our state and country.

Aatmaja

(श्री. संत सेवा संघ)

Disciple, Shree Sant Seva Sangh, Social Propagator, Creator and Producer, Aatmadhyaan Painting Series, Executor and Creator, Shreemad BhagwatSrushti

Aatmaja, a volunteer of Shree Sant Seva Sangh, has been incessantly involved in character and nation building, for the past 21 years through her paintings, sculptures, and art. The paintings were based on the couplets from the scripture ShreeDnyaneshwari and verses of different saints. The paintings were created with the thought of highlighting and bringing forth the meaning of the couplets and verses, thus enhancing their beauty. 'Aatmadnyan', the series of paintings was inaugurated in 2005, at the hands of Padmashree Dr.Vijay Bhatkar. This has been recognised as the pioneer project in Maharashtra which is based on spiritual thoughts and has been portrayed through creative forms and paintings.

'Aatmadnyaan' has made an exclusive addition to the age-old mediums of spiritual propagation like sermons, kirtans, etc.

Today, in the contemporary times, there are several channels and mediums to corrupt the minds and deviate the youth from our cultural beliefs and thoughts. The intellectual deformity and the impact on young minds of this slow poisoning is often difficult to trace and eliminate as compared to physical deviations. Therefore, it is very important that we instill in our youngsters these spiritual and philosophical thoughts which will guide them through their journey of life and inspire them to lead an ethical and righteous life. Young volunteers of Shree Sant Seva Sangh, who are either young professionals or students, elaborate and explain the meaning of all the paintings during the exhibitions.

We have organised several exhibitions in schools, colleges, universities, societies, industries, in and outside Maharashtra.

Aatmaja, has donated all her paintings to the organisation Shree Sant Seva Sangh. To acknowledge this exemplary work of Aatmaja, Mr.Dilip Dixit, a well-known industrialist from Nashik, along with his wife Mrs.Devayani Dixit have built an art gallery in the name of Aatmaja located in Sant ShreeDnyaneshwar Maharaj Sankul, in Indiranagar, one of the prestigious areas of Nashik. The 'Aatmaja' Art Gallery was inaugurated by world-renowned sculptor, Mr.Bhagwan Rampure, Mr.Subhash Dandekar, Camlin and popular actress Mrs.Sukanya Kulkarni-Mone.

OJASVIN GROUP THE UNSTOPPABLE MARKET GIANT

Rohit Sharma at the age of 20, a young mind entered into corporate world with lots of dreams in mind . He started his journey from Delhi NCR with a great mission & vision in order to serve the society with his great techniques, ideas & logical ideology. He has achieved a great milestone in a very short period of time.

He took a step forward towards his dreams with the name of "OJASVIN GROUP", established in 2015, to provide effective and efficient services with his different ventures in order to serve the society.

Expanding their boundaries in the corporate world they entered in Education Sector in 2017 with the fame as Ojasvin Education where their main mission is to fulfil the dreams of our Indian students of getting MBBS done without the scarcity of resources.

With more than 50+ Top MBBS Universities of Abroad they help the students to take their first fly of MBBS. With the name of Ojasvin Education many corporate hubs joined their hands from Kashmir to Kanyakumari to provide opportunities to their localities

Ojasvin Education launched for the first time Caribbean island universities in India which turns around a major step for Indian students to pursue MBAs from there.

They entered into Bollywood Cinema in 2019 with an aim to set a platform that promotes equality to the aspirants who want to make their career in Bollywood cinema. They launched our 1st short movie "THE MIGRANTS" with DONCINEMA under the banner Ojasvin Entertainment World Pvt Ltd.

They move forward to expand their business in Share Market where their vision is to strengthen the wealth of our society and aware of the saving instruments to promote the Indian Government Initiative of "DIGITAL INDIA" Naming as OJASVIN WEALTH CREATION PRIVATE LIMITED they get registered in National Stock Exchange, Bombay Stock Exchange, Multi Commodity Exchange The Team always focus on the Youths who can change the investment.

Expanding Their Roots With Cure Root Ojasvin expands their business and entered in Ayurvedic Sector as Ojasvin Cure Root Pvt Ltd. in 2020 faming Brand Name as CURE ROOT - THE POWER OF AYURVEDA CURE ROOT comes into existence to change the Indian's concept on the adaptation of Ayurvedic Medicines by promoting our old 5000 years traditional method of medicines.

Ojasvin Group's main aim is to create a culture of wellness for our society where one can make their dream possible with them. The company want to remove the scarcity of resources that a common man faces whether in Education, In Finance, In Medical Services or in getting their own home.

Top Mergers & Acquisitions

Us20 billion acquisition of Nuance Corporation by Microsoft :

Microsoft's \$20 billion acquisition of Nuance Corporation gives it a large footprint in healthcare.

According to details of the deal released by Microsoft, the target company's solutions are used by more than 55% of physicians, and 75% of radiologists in the US, and used in 77% of US hospitals.

It, therefore, represents an excellent acquisition for Microsoft Cloud for Healthcare, introduced in 2020, and Microsoft's attempt to bring its industry-specific cloud strategy to the healthcare sector. It paid a 23% premium on the Nuance share price.

PayPal To Buy Japanese Fintech Firm Paidy For \$2.7 Billion As Pandemic Fuels Digital Payments Boom

PayPal Holdings said Tuesday it has agreed to acquire Paidy—a buy now, pay later (BNPL) startup in Japan—for 300 billion yen (\$2.7 billion) as the U.S. payments giant seeks to expand its capabilities amid a pandemic-fueled boom in demand for digital payments solutions.

Digital payments, such as BNPL schemes, gained in popularity at the height of the Covid-19 pandemic last year as consumers—who were stuck at home as governments enforced lockdowns to curb the spread of the virus—turned to online shopping.

PayPal said the acquisition of Paidy will strengthen its position in Japan—the world's third-largest e-commerce market in the world—and complement the company's existing cross-border e-commerce business in the country.

Top Mergers & Acquisitions

US26 billion acquisition of Shaw Communication by Rogers Communication

On the subject of monopolies...

The acquisition of Shaw Communication by Rogers creates a national behemoth in Canadian mobile communications.

Perhaps as a sop to regulators, the combined company has already committed to investing \$2.5 billion in 5G infrastructure across Western Canada over the next half decade.

US17.4 billion acquisition of PPD by Thermo Fisher Scientific Inc.

This deal brings together a leader in scientific instrumentation, reagents and consumables, and software and services (Thermo Fisher Scientific) with a leader in clinical research services (PPD).

The deal is expected to generate in the region of \$125 million in synergies. It also gives Thermo Fisher Scientific Industries a foothold in the \$50 billion clinical research industry.

The acquisition should allow the company to provide a fuller range of services to its clients in areas such as pharmaceuticals and life sciences. It paid a 24% premium on the PPD share price.

H.E. MR. HECTOR CUEVAJACOME
Ambassador of Ecuador to India

BUSINESS INVESTMENTS OPPORTUNITIES IN ECUADOR

H.E. Mr. Hector CuevaJacome, Ambassador of Ecuador to India has been in India more than 7 year. He was the former Consul General of Ecuador in Mumbai since 2013 and in 2018 was designated as the Ambassador of Ecuador in India. H.E. has achieved Masters in Business Administration specializing in International management and also a masters in Corporate Social Responsibility and Social Action. His valuable expertise both in Ecuador and India has proven successful in terms of the growing trade between the two countries, new Ecuadorian products entering the Indian market, promoting investment opportunities in Ecuador and also for connecting and promoting India among the Latin American countries.

The Trade Office of Ecuador in Mumbai

Strengthening the relations between India and Ecuador since 2013

The Trade office of Ecuador in Mumbai, entity part of the Ministry of Production, Foreign Trade, Investment and Fisheries, under the Government of Ecuador, started operations in 2013. The role of the trade office is to facilitate trade between India and Ecuador, by positioning Ecuador as a provider of high quality and value added products and services, with an emphasis on the diversification of products, markets and the attraction of foreign investment, as well as promoting the rich and diverse culture and tourist attractions of Ecuador.

Over the past 8 years we have carried out various promotional activities aimed at creating awareness about Ecuadorian products and investment opportunities in Ecuador. Thanks to these activities various Ecuadorian companies have exported their products to India for the first time. These promotional activities have also contributed to strengthening the presence of products that Ecuadorian companies have been exporting to India for a few years now.

Ecuador is a small country in South America and has varied products and services to offer to the world. At present, there are various Ecuadorian products already in India and many more in the pipeline to enter the Indian market. Ecuador has been a top supplier of teak wood to the Indian market, around 98% of teak that Ecuador exports has India as destination. Ecuadorian teak wood in India is extensively used for construction of frames and panels for furniture. Other Ecuadorian products already in the Indian market are cocoa beans, palm hearts, preserved roses (these are fresh roses that are preserved to have a shelf life of more than 1 year), corozo blanks (intermediate material to make eco-friendly buttons), balsa wood (used for the blades of windmills), shrimps, metal scrap, and leather to name a few. We are further researching on other products and services to enter in the market.

Business Investment Opportunities

The trade office also works on the attraction of Indian investments into Ecuador. We provide useful information to potential investors regarding investment opportunities in Ecuador, incentives and regulations and other relevant details about the investment climate in Ecuador. Recent investments in the country show the confidence of foreign investors and the great opportunities that Ecuador can offer. Currently we have an investment portfolio that includes private projects in sectors such as agroindustry, aquaculture, tourism, technology, among others. We also have projects available for public-private partnerships that include the construction of roads, hydroelectric power plants and wind energy projects among many more.

Bilateral Trade relations with India

In order to strengthen bilateral trade ties, India and Ecuador signed a partial scope agreement to set up Joint Economic and Trade Committee (JETCO) in 2015. In early 2019 the two countries concluded the joint studies required to initiate the negotiations for signing a partial scope trade agreement. The protocol for the acceptance of the joint studies was signed by India and Ecuador on September 2019. According to the joint studies the signing of a trade agreement could signify an additional USD 2.5 billion in the bilateral trade. We have been informed that the next step is to set up a date for the first round of negotiations.

Further the ties between India and Ecuador are being strengthened through trade promotion events, e-commerce platforms, business intelligence and through personalized advisory and assistance. The relationship between India and Ecuador has an enormous scope for growth and we, as the trade office of Ecuador in Mumbai, are looking forward to strengthening the ties between the two countries.

World BioEconomy
Forum goes to Brazil – live from Belém!

Venue
Virtual

Date – 18th – 20th OCTOBER 2021

Organiser

The World BioEconomy Forum

There is no one-size-fits all bioeconomy, but several bioeconomies based on their own strengths. That is one of the key reasons we will be heading to Brazil for the World BioEconomy Forum 2021. The Forum will be held in Belém, the capital of the state of Pará. The location is at the mouth of the Amazon River – again at the heart of a particularly important ecosystem. The World BioEconomy Forum would like to present Belém and the state of Pará as a real hot spot of the circular bioeconomy in 2021, and share its narrative with the global circular bioeconomy society. Walking the talk – we can learn from Brazil and the Amazon region at the same time as sharing our lessons from the other parts of the world.

The Forum is co-hosted by the state of Pará with partners the Brazilian Agribusiness Association (ABAG) and The Brazilian Tree Industry (Ibá). Together we will offer an unmissable event.

To jump into the themes of the event, take a look at the video below to hear what was said about the bioeconomy and the Amazon at our latest Roundtable discussion!

IIT Kharagpur's Annual Global Business Model Competition, Empresario Launched.

Entrepreneurship Cell, IIT Kharagpur in association with GoToPitch, launches Global Business Model Competition - Empresario 2022. Prizes worth INR 50 lakh will be rewarded to the finest entries in all categories.

There will be extensive and high-quality mentoring for the shortlisted entries, and those who are selected will have the opportunity to pitch their ideas to some of India's most sought-after VC firms, investors, and business leaders. Along with mentorship and support from various organizations, Empresario participants will avail Start-up services like legal advice, taxation, co-working space, HR needs, incubation opportunities, and get to know financial and technical aspects of running a start-up. Each entry is ensured to get an equal chance of proving their mettle and take home deserving prizes.

The executive head of competitions at Entrepreneurship Cell, Vaishnav Lembhe, says "This is a platform where Empresario participants have a one-of-a-kind opportunity to exhibit their ideas and compete for a variety of prizes. This year, owing to COVID-19, the competition will be held online, and we have made the necessary preparations to provide a smoother experience."

For the first round of Empresario, the participants will be asked to complete and submit a questionnaire, that can be found on our website, regarding their business idea. Those willing to participate must register before the deadline, 15th November 2021. Shortlisted participants will receive around 1 month of mentorship before presenting their Business Models.

If you want to turn your idea into an entrepreneurial venture, then this is the perfect stage. Visit www.ecell-iitkgp.org/empresario for more details.

DR.YOGESH DUBE

CHIEF PATRON-GIBF

It gives me great pleasure to write about the Global India Business Forum, National Awards event which will be held on 23rd September 2021 at Raj Bhavan, Mumbai, Maharashtra, India.

The Global India Business Forum better known as GIBF is a global platform designed by its President, Dr.Jitendra Joshi with the intention of connecting, expanding, and recognizing small and large-scale business endeavors.

GIBF is a conglomerate of members from different backgrounds, including commerce, industry, services, and academics. With the Government of India's initiative for "Make in India" and "Skill Development", taking off in a big way, ample opportunities for both Indian and Global companies to run start-ups and make exponential growth in all business sectors has paid dividends in spite of the raging pandemic in the country.

I am pleased to state that GIBF has been at the forefront leading business professionals from various segments like Automobile, Engineering, FMCG, Chemical, Pharmaceuticals, Electronics, Heavy Metal, Service Industry etc. to take the plunge.

During this pandemic, many individuals from different business streams outdid themselves to bring succor to suffering humanity.

I salute these Covid Warriors and wish them the very best in their future endeavours. To them I say "continue the good work, the country needs more like you!!!"

I take this opportunity to congratulate the entire managing committee of GIBF for organising this event and wish them every success in their future accomplishments.

With Best Wishes

DR. YOGESH DUBE

National Business Excellence & Achiever's Awards 2021

★★★

Congratulations on your accomplishment!

Global India Business Forum Congratulates all the awardees and appreciates your participation in the National Business Excellence and Achievers Awards.
